

Prove It!

Answer the question, then prove it. Students read a Teach BIG passage and tap the exact sentence that supports the answer.

Grades 3 to English II

The Mighty Monarchs

INFORMATIONAL

1 Every fall, millions of monarch butterflies begin a journey that covers thousands of miles. These small orange and black insects fly from Canada and the United States all the way to the mountains of central Mexico. No single butterfly makes the entire round trip because the journey takes several generations to complete.

2 Scientists have studied how monarchs find their way without ever having made the trip before. Researchers discovered that monarchs use the position of the sun and a special internal compass to navigate. This means each new generation already knows the route, even though no adult butterfly teaches it to them.

3 The journey is full of danger. Storms can blow monarchs off course, and cold weather can slow them down or even freeze them. Many monarchs do not survive the long flight, but enough make it to keep the species alive. Farmers and gardeners along the route have started planting milkweed to

QUESTION 1 OF 1

What is the central idea of this passage?

Click below if you would like extra support. You only need to use these if you want or need them.

Show me the key words

Which paragraph?

Explain the question

Strategy tip

A Monarch butterflies are orange and black insects that live in Canada.

B The monarch butterfly migration is a long, dangerous, and remarkable journey that spans generations.

C Scientists have figured out how monarchs use the sun to find Mexico.

ANSWER, THEN PROVE IT

Read a passage, answer the question, then tap the proof sentence.

QUESTION 1 OF 1

What is the central idea of this passage?

Click below if you would like extra support. You only need to use these if you want or need them.

Show me the key words

Which paragraph?

MULTIPLE CHOICE

Answer the question with up to two tries.

The Mighty Monarchs

INFORMATIONAL

1 Every fall, millions of monarch butterflies begin a journey that covers thousands of miles. These small orange and black insects fly from Canada and the United States all the way to the mountains of central Mexico. No single butterfly makes the entire round trip because the journey takes several generations to complete.

NUMBERED PARAGRAPHS

The passage stays beside the question.

WHAT STUDENTS DO

- Read a short passage with numbered paragraphs.
- Answer a multiple choice question, with up to two tries.
- Tap the exact sentence that proves the answer.

WHAT TEACHERS GET

Grades. Choose Grades 3 to English II, then a passage.

Results. Each finished game reports with the class code, the teacher last name, and a student identifier, never a real name.

Play modes. Teacher only on the SmartBoard, or students on their own with the RLA Learning LAB.

Every answer is **proved with the text**: a multiple choice answer first, then the one sentence that supports it.

TEKS COVERED

TEXAS TEKS FOR THIS GAME

3.7(C), 4.7(C), 5.7(C), 6.6(C), 7.6(C), 8.6(C) Use text evidence to support an appropriate response. 3.6(F), 4.6(F), 5.6(F), 6.5(F), 7.5(F), 8.5(F), English I 4(F), English II 4(F) Make inferences and use evidence to support understanding. English I 5(C) Use text evidence and original commentary to support a comprehensive response. English II 5(C) Use text evidence and original commentary to support an interpretive response.

SUPPORT WHEN A STUDENT WANTS IT

Four support buttons are there any time: Show me the key words, Which paragraph?, Explain the question, and Strategy tip. Students only use them if they want or need them.

FOUR SUPPORT BUTTONS: KEY WORDS, WHICH PARAGRAPH, EXPLAIN THE QUESTION, STRATEGY TIP.

How to get it

Whole class, teacher only: \$3.99 per game, per year (play it with your class, Tier 1 whole group)

Teacher + 25 students, every reading and writing game: RLA Learning LAB, \$99 a year

Also in Pick 3 (\$339) and Complete Set (\$479)
