

RLA Learning LAB

Language Arts Builders and practice games that keep Grades 3 to 8 students engaged while you target TEKS aligned reading and writing skills.

Grades 3 to 8

Dashboard

Interactive Reading Tools

Practice answering reading questions and proving every answer with evidence from the text.

PURPOSE

Reading Tools help students answer a question and then prove the answer with evidence from the text.

HOW IT WORKS

Open a tool, choose a passage, and answer each question. Then tap the sentence in the passage that supports the answer.

THE GOAL

Students build the habit of proving every answer with the text.

Interactive Writing Tools

Build a thesis (central idea), support it with strong evidence, and explain how the evidence proves this idea.

PURPOSE

Writing Tools help students build a thesis (central idea), choose evidence, and explain how the evidence proves the idea.

HOW IT WORKS

Open Writing Workouts for whole group practice on the Smartboard, or open Thesis Time! to write and rate a thesis (central idea) on your own.

THE GOAL

Students climb the thinking levels and finish with strong, supported writing.

The Mighty Monarchs

INFORMATIONAL

1 Every fall, millions of monarch butterflies begin a journey that covers thousands of miles. These small orange and black insects fly from Canada and the United States all the way to the mountains of central Mexico. No single butterfly makes the entire round trip because the journey takes several generations to complete.

2 Scientists have studied how monarchs find their way without ever having made the trip before. Researchers discovered that monarchs use the position of the sun and a special internal compass to navigate. This means each new generation already knows the route, even though no adult butterfly teaches it to them.

3 The journey is full of danger. Storms can blow

QUESTION 1 OF 1

What is the central idea of this passage?

Click below if you would like extra support. You only need to use these if you want or need them.
